Subject: Lough Sheelin closed season

This lough is one of the most wasted resources in Ireland. Huge fish of all species, closed for half the year and all at a time when angling tourism is falling apart. Then to add insult to injury we are charged to fish it when the likes of Mask and Corrib are free and open all year. Please see sense and let proper Pike anglers enjoy this great water. I would like to see the 2 rod rule and dead baits be able to be used as well. I would suggest that 6" lures rule be applied so as trout catches in the summer whilst trolling to keep the Trout anglers happy.

Andrew Mcfarlane.
