Subject: Closed Season on Lough Sheelin

Dear Sirs,

As a pike angler from Belfast I am very concerned that you are considering closing Lough Sheelin for the period 13th October to end of February.

This is a great time for pike angling and with the trout angling over at that time of year it will bring additional money to the area which must be a good thing.

As illustrated in England trout and pike fishing works very well together and lough sheelin can be a similar success.

Please think of pike anglers when making your decision.

Robert Storey
