Subject: Closure of Lough Sheelin to Coarse Fishing

Dear Sir,

The proposed closure of Lough Sheelin to coarse anglers between October and March is just another attack by the IFI on pike and pike anglers and is wrong. It is about time that the IFI and game anglers recognised that pike and pike anglers have just as much right to be in and on Irish waters. Pike angling is becoming increasingly popular in Ireland and the time when game anglers could dictate policy on pike and pike anglers is coming to an end. The sooner the better.

Yours sincerely

Gavin Harker
