Subject: Management of pike in designated brown trout fisheries

Sir

Please see quote on IRISH pike society Facebook page (30/11/16) below

" From : jones Daniel
I'm keeping every trout I get for dead bait or food for my dog or I will just kill them them
and
fuck them back in for the pike :) "

If this quote is representative of the IPS mindset then I can only conclude they are a sad
and
pathetic group.

They could not be described as anglers or indeed of having the general wellbeing of
angling
seriously to the fore.

Yours
